NEW HIGHWAY.

A petition was received by the selectmen asking for a new road from near residence of William Bell to Newmarket line near residence of Fred Bassett.

The board examined the proposed route and heard the interested parties and had a survey and plan made. After hearing all the evidence it was voted to lay out the road. The selectmen believe that this road will afford a considerable number of our citizens important advantages and are of the opinion that the expense will not be great as the land damages will be light. In regard to these damages we wish to say that William Bell and Fred Bassett waive all right to damage in consideration of an agreement by the town to build a suitable fence along the line. S. C. Kimball asks for damages and the same have been awarded. The full information as to this road and a plan are on file with the town clerk.

Respectfully,

J. W. BURNHAM,

G. H. WHITCHER,

C. E. HOITT,

Selectmen of Durham.

TRUST FUND HELD BY THE TOWN OF DURHAM.

The Anna M. Woodman and the Sarah E. Griffiths legacies are both invested in the Strafford Savings Bank and are each of \$300, as per book No. 22,499. The Lydia Simpson trust fund is of \$100, and is invested in the same bank as per book No. A, 6088; this fund is to be kept separate from all other trust funds, and a separate account to be made of the same, in a suitable book procured for that purpose. The George Ffrost legacy fund consists of 13 shares of the capital stock of the Boston & Albany railroad, par value \$1,300.00; the dividends are received by the Treasurer each quarter and are placed to the credit of the George Ffrost Temperance Association, subject to their order.

SIXTH ANNUAL REPORT
OF THE
DURHAM PUBLIC LIBRARY.

The trustees of the Durham Public Library submit the following annual report for the year ending Feb. 15, 1898:

At the meeting held March 20, 1897, the same officers were elected as in 1894-95-96.

During the year, two hundred and sixty-five books and magazines have been presented to the library, six have been purchased by the Durham Library Association, and two hundred and thirty purchased with the town appropriation, making the total number of books now in the library fifty-six hundred and twenty, not counting pamphlets, and an increase during the year of five hundred and one books. The average circulation is about two hundred per week. Some extra shelving has been furnished at the expense of the Durham Library Association.

During the past year Miss Mary E. Smith has donated sixty books and six magazines, and her nephew, Mr. Hamilton Smith, two hundred dollars' worth of books, judiciously selected by the librarian, and in behalf of the public the trustees would gratefully acknowledge their generosity.

As the library was insured for three years when the insurance was last paid there is no charge for insurance this year, and the running expenses thereby reduced to one hundred dollars.

The selectmen have inserted in the warrant for the annual town meeting to be held March 8, 1898, the following article:

“To see what sum of money the town will vote to raise and appropriate to pay incidental library charges for the ensuing year.”

Under the contract between the town of Durham and the Durham Library Association, signed March, 1893, (see contract printed in the annual town report, 1893,) the town contracted to appropriate annually for books two hundred and twenty-five dollars, and pay the necessary running expenses, etc. Previous to this year the amount necessary to be raised has been estimated by the committee appointed in town meeting to recommend the amount to be raised to pay necessary town charges, and the amount thus raised has covered the library account. In town meeting, under the warrant posted by the selectmen, you are asked to determine the amount to be raised for library purposes. In order to inform the public as to the average cost of running the library for the past five years the following facts and figures are given:

Two hundred and twenty-five dollars are annually expended for books, and this amount is fixed under the contract. The amount expended for running expenses is not a fixed sum, but whatever the expenses actually are.

For year ending Feb. 15, 1894.....	\$119 88
1895.....	87 79
1896.....	125 82
1897.....	100 02
1898.....	100 00

or an average of \$106 70 per year, not including insurance, with an extra expense of about \$105 once in three years (in the future) for insurance. As there is no in-

surance to be placed this year doubtless one hundred and twenty-five dollars would pay the running expenses for the coming year, provided the trustees are so fortunate as to retain the valuable services of the present librarian at the nominal salary paid her, which each year is returned to the library in a generous donation of books.

The library has been managed with economy in the past and we trust will continue to receive the same consideration in the future.

Respectfully submitted, by order of the board,

LUCIEN THOMPSON,

Secretary.

ANNUAL REPORT

OF THE

BOARD OF EDUCATION.

Taken as a whole it may be truthfully said that the public schools in Durham are in very satisfactory condition, substantial progress having been made both in the efficiency of teachers and in the average standing of scholars.

The success of schools depends, first of all upon the support and co-operation of parents, secondly, upon the efficiency of teachers, and thirdly, upon the school facilities, such as text books, maps, length of school, etc.

Under the first head it must be said that there is room for improvement, great damage both to schools as a whole and greater to individual scholars is done by allowing prejudice, against a teacher, or against the Board of Education or against a text book or system of penmanship or any other fundamental part of the school, to influence the action or words of parents. Children are quick to observe and quick to act, and if once the notion is acquired that a given teacher is not approved of at home the fact soon shows itself at school. Parents must remember that it is easy to offer a lame or false reason for taking their children out of school, but in so doing they are teaching their children to be deceitful, and in later years they may have occasion to repent in sackcloth and ashes when it is too late. The greatest injustice that has been thoughtlessly done in this town is that of continually asserting that the schools in the village are unusually rough and boisterous; the facts do

not bear out the assertion, and those who maintain that this is so have either seen little of schools outside of Durham or else are poor observers. I should recommend all who think our play grounds the scene of excessive roughness on the part of scholars to visit the schools in any of our cities or large villages, Manchester, Nashua, Portsmouth, or in fact any city, and stand for a short time and carefully observe the recess and then if not convinced let them see the schools after the noon or night dismissal. It is not a fact that scholars in Durham are more boisterous than in other places, and I wish to correct the impression so frequently made by the oftentimes thoughtless statements of those who ought to uphold rather than injure our public schools.

With the second factor, namely, efficiency of teachers, the board of education is responsible. If a teacher is incompetent, or has survived her usefulness in a given school, the board is at fault if she is not replaced. During the past three years this view of the case has been fully concurred in and when a teacher has been found wanting she has been given a reasonable time in which to correct faults, failing in this, she has been replaced. Personal likes or dislikes have not ruled, and so far as our judgment has been correct the interests of the school have been placed ahead of the interest of any individual. If a teacher has been successful she has been retained as long as possible but it must be remembered that the salary which we can pay is not sufficient to retain the best teachers for any considerable time.

The third factor, under consideration has been in the mind of the board constantly. All of the school houses have been repaired or improved during the three year so that today all are in excellent condition, excepting only the interior of the village school house, which, owing to

lack of appropriation sufficient, has not been renovated; this, however should be done at once.

The Mast Road school house has been most thoroughly repaired, including new blackboards, new stove, modern desks and new plastering. In all the schools the supply of books has been kept up to the standard.

In the matter of writing the board after careful consideration adopted the vertical system and after two and one-half year trial it has more than met the expectations of all. I am fully convinced that more progress is made in one year with the vertical system, so far as legibility is concerned, than in two years with the slanting writing.

One thought more, and this concerning future development. We have, growing up to school years, now about fifty children, who within the next four years will apply for admission; the past year has witnessed the arrival of eighteen future American citizens, fifteen of whom are within the village school district, at this rate the time will soon come when greater schoolroom capacity will be imperative. At present, however and probably for a year to come the present arrangements are adequate, though better work could be done if the primary school could be divided into a primary and an intermediate grade. It is time to consider the matter though immediate action may not seem wise. It remains a fact however that with the present school rooms anything like satisfactory grading cannot be accomplished and we must wait for another room and another teacher before the best results can be obtained.

G. H. WHITCHER,
Chairman Board of Education.

ANNUAL REPORT

OF THE

TREASURER OF SCHOOL BOARD.

The treasurer presents the following report for the year ending Feb. 15, 1898:

There was a vote taken at the school meeting to raise money for repairs on the village school house. Necessary repairs were made and money used for same.

There have been thirty-two weeks of schooling in all the schools except at Packer's Falls, which had thirty-three, as there was one week due them from last year.

The year's expenses have been met, leaving a balance due the schools of \$167.50.
